

# How to make the photo

- To link a DNI or passport to your account, you can upload an image of the gallery or take a photo of the document.
- In case of ID, take the photo by the back side of it, as shown in the example.
- In the case of a passport, take the photo of the page where the personal data are located, as shown in the example.

For the application to correctly recognize the data, it is recommended to make the horizontal photo about 20 cm from the document. When you return to the form, review all the data, it is possible that some data must be entered manually.
